Mod. TE Titan Gen 2 Std. M18x1

Kategorie: Schalldämpfer - Langwaffen

Zustand: neu

Zum Kauf dieses Produkts ist die Vorlage der Erwerbsberechtigung erforderlich!

Beschreibung:

TRONRUD | TE-TITAN GEN 2.0 Standard .308TE-Titan Gen 2.0 suppressors meets most requirements for hunting and sports shooters. The internal structure is optimized for every caliber, resulting in low weight and excellent performance. The suppressors are extremely reliable because of the chosen material Titanium Grade 5. The thread insert is made from stainless steel. All suppressors are rated for magnum calibers. TE-Titan Standard is the absolute favorite when maximum performance and recoil absorption are required. It is the biggest suppressor in the Gen 2.0 series. Baffles and internal structure are optimized for magnum calibers. Titanium is one of the most corrosion resistant metals. Titanium is not damaged by water, saline solution or chlorine gas. Tests show that carbon build up does not adhere to titanium in the same way it does on aluminum and steel. After 8000 rounds with caliber 308, there is still no need for cleaning the suppressor
Material Titanium Grade 5. Weight 340 g Reduction -33 DB (C) Total length 220 mm Length 140 mm Max. dia 25 mm
