**Kategorie:** Langwaffen - Selbstladebüchsen

**Kaliber:** .357Mag

**Zustand:** neu

**Zum Kauf dieses Produkts ist die Vorlage der Erwerbsberechtigung erforderlich!**

## Beschreibung:

Henry Arms BigBoy X Model 17,14" Lauf, MATT, BITTE KALIBER  
AUSWÄHLENCreating the mold and then breaking out of it is something that we take great pride in. It's how we progress and continue pushing the boundaries of what lever actions are capable of. The Big Boy X Model does just that and marks an evolutionary step in a product line with quite the pedigree. Modern hunters and shooters need a robust platform with the versatility to perform several different jobs and the X Model provides it right out of the box. The Big Boy X-Model is packed with a high-performance feature set and plenty of room to add even more. The durable synthetic furniture is equipped with integrated mounting points for a sling, a solid rubber recoil pad, and both Picatinny and M-Lok accessory slots to aid in mounting the tools you need for the task at hand. The carbine-length barrel is topped off with highly visible fiber optic sights, fore and aft, and the muzzle end is threaded (5/8x24 thread pitch) to accept a suppressor or other muzzle device. A screw-on thread protector ensures your muzzle threads stay in top shape. Keeping true to our roots the Big Boy X Model utilizes a 7-round removable tube magazine for convenient unloading, and the addition of a side loading gate allows that magazine to be kept topped off without needing to remove the tube or suppressor. Whether it's geared up to be your bedside protector, truck gun, deer rifle, or Saturday range day show-off piece, the Big Boy X Model is one rifle capable of many different roles.
